QUESTION 1

How does the secure access service edge (SASE) security model provide cost savings to organizations?

- A. The single platform reduces costs compared to buying and managing multiple point products.
- B. The compact size of the components involved reduces overhead costs, as less physical space is needed.
- C. The content inspection integration allows third-party assessment, which reduces the cost of contract services.
- D. The increased complexity of the model over previous products reduces IT team staffing costs.

Correct Answer: C

QUESTION 2

Which elements of Autonomous Digital Experience Management (ADEM) help provide end- to-end visibility of everything in an organization's environment?

- A. integrated threat intelligence management, automated distribution to enforcement points at scale, full ticket mirroring
- B. scanning of all traffic, ports, and protocols
- C. data collected from endpoint devices, synthetic monitoring tests, and real-time traffic
- D. alerts, artifacts, and MITRE tactics

Correct Answer: A

QUESTION 3

Which App Response Time metric is the measure of network latency?

- A. Round Trip Time (RTT)
- B. Server Response Time (SRT)
- C. Network Transfer Time (NTTn)
- D. UDP Response Time (UDP-TRT)

Correct Answer: A

QUESTION 4

Which element of Prisma Access enables both mobile users and users at branch networks to access resources in headquarters or a data center?

- A. User-ID

- B. private clouds
- C. App-ID
- D. service connections

Correct Answer: D

QUESTION 5

What is an advantage of next-generation SD-WAN over legacy SD-WAN solutions?

- A. It enables definition of the privileges and responsibilities of administrative users in a network.
- B. It allows configuration to forward logs to external logging destinations, such as syslog servers.
- C. It steers traffic and defines networking and security policies from an application-centric perspective, rather than a packet-based approach.
- D. It provides the ability to push common configurations, configuration updates, and software upgrades to all or a subset of the managed appliances.

Correct Answer: C
