QUESTION 3

A manufacturer uses a dashboard for analysis. Users created many bookmarks to simplify their workflow. An administrator also created some bookmarks in the app based on user feedback.

The organization needs to republish the app and maintain both the users\' and administrator\'s bookmarks.

Which steps should the business analyst take to meet this requirement?

A. Duplicate the app in Work Request bookmark owner to publish bookmark Replace the existing app

B. Duplicate the app in Work Review previous bookmarks Replace the existing published app

C. Review previous bookmarks Copy the app to a new stream Publish the app in the new stream

D. Create a duplicate copy of the app Delete the published app Publish the duplicate app

Correct Answer: D

QUESTION 4

A data architect adds a field to an existing data model that contains new values for the ProductGroup. The business analyst needs to efficiently update the app and meet these requirements: Use the existing charts, which are built using a master item dimension called ProductGroup Existing charts must use the new values for ProductGroup Business users must be able to compare the new and old values

How should the business analyst meet these requirements?

A. Change the ProductGroup dimension using the new field, and create a new dimension in the master items for the old field.

B. Create a calculated dimension on the charts to allow the users to compare the new value to the old value.

C. Replace the dimensions on all charts to use the new ProductGroup field added to the data model.

D. Use set analysis on the chart measures to see the difference in ProductGroup between the new field and the old field.

Correct Answer: D

QUESTION 5

A business analyst is using a box plot to show distribution. The data scientist provides the formulas to configure a custom box plot.

Which action(s) should the business analyst take to meet these requirements?

A. Under Box plot elements, disable Use presets and enter the given formulas as calculated dimensions

B. Under Box plot elements, disable Use presets and enter the given formulas in the expressions field

C. Select Add measure, and enter the given formulas as expressions

D. Create variables and enter the given formulas as expressions

Correct Answer: A
