QUESTION 1

Don has requested an accounting of disclosure. Which of the following would be on the list?

- A. his previous request
- B. the nurses involved in his care
- C. the attorney request of March 2003
- D. none of the above

Correct Answer: D

QUESTION 2

A HIM Department wants to buy new open-shelf filing units for its file expansion. Each of the shelves in a new 6-shelf unit measures 33 linear filing inches. There will be an estimated 1,000 records to file. The average record is 1 inch thick.

How many filing units should be purchased?

- A. 2
- B. 4
- C. 6
- D. 8

Correct Answer: C

QUESTION 3

Which data bank is a result of HIPAA legislation?

- A. Fraud and Abuse Data Bank
- B. Health care Integrity and Protection Data Bank
- C. National Practitioner Data Bank
- D. Privacy Information Breach Data Bank

Correct Answer: B

QUESTION 4

An acute care facility is installing a new computer system in the chart-tracking area. During implementation, the current existing system will continue to operate while bringing up the system, allowing a comparison of the outputs from both systems for accuracy over a 1-mon period. This process describes what type of conversion?

- A. history processing
- B. direct conversion
- C. phased-in conversion
- D. parallel conversion

Correct Answer: D

QUESTION 5

As the Director of the Health Information Department, you are preparing a request for approval for the purchase of an encoding system. Because this is considered a capital request, you are required to submit the cost-benefit ratio. The software and license costs \$6,000, hardware maintenance is \$1,500, and the training of two employees will cost \$500. It is expected that the encoding system will increase reimbursement by \$10,000. The cost-benefit ratio is

- A. 0.8.
- B. 1.7.
- C. 1.25.
- D. 1.33.

Correct Answer: C
