100% Passing Guarantee  
100% Money Back Assurance

Following Questions and Answers are all new published by SOA Official Exam Center

-  **Instant Download** After Purchase
-  **100% Money Back** Guarantee
-  **365 Days** Free Update
-  **800,000+** Satisfied Customers

### QUESTION 1

A service's functional context determines its: Select the correct answer.

- A. purpose and function
- B. implementation environment and deployment location
- C. scalability and usage thresholds
- D. longevity and versioning parameters

Correct Answer: A

---

### QUESTION 2

Which of the following statements is false? Select the correct answer.

- A. Increasing the quantity of data model transformation logic within a service composition results in an increase in the development effort required to build the service composition due to an increase in the necessary data model mapping logic.
- B. Increasing the quantity of data model transformation logic within a service composition results in a decrease in the development effort required to build the service composition due to the fact that the intrinsic data model mapping logic residing within services can be leveraged.
- C. Increasing the quantity of data model transformation logic within a service composition results in a decrease in the performance of the service composition due to the need to execute the data model mapping logic at runtime.
- D. Increasing the quantity of data model transformation logic within a service composition results in an increase in the architectural complexity of the service composition due to the incorporation of the additional data model transformation layers.

Correct Answer: B

---

### QUESTION 3

The service-orientation principle primarily concerned with ensuring the runtime behavioral predictability of a service is: Select the correct answer.

- A. Service Prediction
- B. Service Loose Coupling
- C. Service Abstraction
- D. None of the above.

Correct Answer: D

---

#### QUESTION 4

Which of the following does not represent a typical form of service contract standardization addressed by the Standardized Service Contract principle? Select the correct answer.

- A. the standardization of a service's functional expression
- B. the standardization of industry technologies across different service inventories
- C. the standardization of data models used by service contracts
- D. All of the above represent typical forms of standardization addressed by the Standardized Service Contract principle.

Correct Answer: B

---

#### QUESTION 5

As a first step toward replacing a corporate customer database, a company attempts to limit access to customer services via an official Customer entity service. However, some time later it is discovered that several applications have been bypassing the Customer service in order to directly access the customer database. As a result, these applications exhibit which negative form of coupling? Select the correct answer.

- A. Contract-to-Implementation
- B. Consumer-to-Implementation
- C. Consumer-to-Contract
- D. Contract-to-Technology

Correct Answer: B
