QUESTION 1

The Service Loose Coupling principle advocates which of the following coupling types? Select the correct answer.

- A. Contract-to-Implementation
- B. Consumer-to-Contract
- C. Logic-to-Contract
- D. None of the above.

Correct Answer: C

QUESTION 2

Which of the following statements does not make sense? Select the correct answer.

- A. By applying the Standardized Service Contract principle, the amount of data model transformation logic required by my solution has been reduced.
- B. Since the design standards created in support of the Standardized Service Contract principle have been more widely enforced, I\\ve noticed the same data models being shared by more services.
- C. It is thanks to the Standardized Service Contract principle that we have been able to better isolate our services so as to reduce their dependency on shared databases.
- D. All of these statements make sense.

Correct Answer: C

QUESTION 3

Which of the following statements are true? SELECT ALL THAT APPLY

- A. The application of service-orientation leads to reduced awareness of underlying service implementation details because the Service Abstraction principle advocates limiting what is published about services.
- B. The application of service-orientation leads to increased consistency in how functionality is expressed in the service contract because the Service Reusability principle advocates deferring service contract information at runtime.
- C. The application of service-orientation leads to increased behavioral predictability and increased availability and scalability as a result of applying the Service Autonomy and Service Statelessness design principles.
- D. The application of service-orientation leads to increased awareness of available services because the Service Discoverability design principle advocates improving the communications quality of published service information.

Correct Answer: ACD

QUESTION 4

Which of the following are considered characteristics associated with service-oriented technology architecture? Select the correct answer.

- A. vendor-neutral
- B. business-driven
- C. enterprise-centric
- D. All of the above

Correct Answer: D

QUESTION 5

Which of the following statements are true? SELECT ALL THAT APPLY

- A. The adoption of service-orientation can result in an increased overall time and cost for the initial delivery of service logic.
- B. The adoption of service-orientation can result in increased design complexity due to a constant emphasis on reuse.
- C. The adoption of service-orientation can result in an emphasis on tactical (short-term) rather than strategic (long-term) planning in order to justify a quick ROI.
- D. The adoption of service-orientation can result in a need to introduce a governance structure that may introduce new organizational roles and processes.

Correct Answer: ABD
