QUESTION 1

DRAG DROP

You need to create a trainable classifier that can be used as a condition in an auto-apply retention label policy.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Answer Area

Exchange Online emails: ▼

| A header only |
| A watermark only |
| A watermark and a header |

Site1 documents: ▼

| A header only |
| A watermark only |
| A watermark and a header |

Correct Answer:

Answer Area

Exchange Online emails:

A header only
A watermark only
A watermark and a header

Site1 documents:

A header only
A watermark only
A watermark and a header

QUESTION 2

You have a Microsoft 365 E5 subscription that contains the users shown in the following table.

Name	Department
User1	Finance
User2	Research
User3	Finance

You need to prevent users in the finance department from sharing files with users in the research department. Which type of policy should you configure?

A. communication compliance

B. information barrier

C. Conditional Access

D. insider risk management

Correct Answer: B

QUESTION 3

HOTSPOT

You have a Microsoft 365 subscription that contains the users shown in the following table.

The email	generated a policy tip when the email was being written
	generated an incident report
	was forwarded to another user for approval

The Financial Data policy is configured to	enforce DLP rules
	test the policy by using notifications
	test the policy without using notifications

You create the data loss prevention (DLP) policies shown in the following table.

The email	generated a policy tip when the email was being written
	generated an incident report
	was forwarded to another user for approval

The Financial Data policy is configured to	enforce DLP rules
	test the policy by using notifications
	test the policy without using notifications

For each of the following statements, select Yes if the statement is true. Otherwise, select No. NOTE: Each correct selection is worth one point.

Correct Answer:

Answer Area

The email was [▼]

| delivered immediately |
| quarantined and undelivered |
| sent to a manager for approval |

The sender's manager [▼]

| approved the email by using a workflow |
| overrode Rule1 |
| was uninvolved in the override process |

QUESTION 4

HOTSPOT

You have a Microsoft SharePoint Online site that contains the following files.

Answer Area

By default, email is: [▼]

| Deleted after two years |
| Deleted after one month |
| Retained in the mailbox for 10 years |
| Moved to the archive mailbox after two years |

To change the retention
period for archiving, modify: [▼]

| The Default MRM Policy |
| The Exchange Label Policy |
| The properties of the archive mailbox |

Users are assigned roles for the site as shown in the following table.

All email to a domain named fabrikam.com
must be encrypted automatically:

A data connector in the Microsoft 365 compliance center
A data loss prevention (DLP) policy in the Microsoft 365 compliance center
A mail flow connector in the Exchange admin center
A mail flow rule in the Exchange admin center

Encrypted emails must expire seven days
after they are sent:

A custom branding template in Microsoft Exchange Online PowerShell
A label policy in the Microsoft 365 compliance center
A mail flow rule in the Exchange admin center
A sensitive info type in the Microsoft 365 compliance center

Which files can User1 and User2 view? To answer, select the appropriate options in the answer area. NOTE: Each correct selection is worth one point.
