QUESTION 1

You have a Microsoft 365 tenant that contains a Microsoft SharePoint Online site named Site1. You have the users shown in the following table.

Name	Group/role
User1	Site1 member group
User2	Site1 member group
User3	Site1 owner group
User4	Sharepoint administrator role

You create a data loss prevention (DLP) policy for Site1 that detects credit card number information. You configure the policy to use the following protection action:

When content matches the policy conditions, show policy tips to users and send them an email notification.

You use the default notification settings.

To Site1, User1 uploads a file that contains a credit card number.

Which users receive an email notification?

- A. User1 and User2 only
- B. User1 and User4 only
- C. User1, User2, User3, and User4
- D. User1 only
- E. User1 and User3 only

Correct Answer: D

QUESTION 2

You need to be alerted when users share sensitive documents from Microsoft OneDrive to any users outside your company. What should you do?

- A. From the Microsoft 365 compliance center, create a data loss prevention (DLP) policy.
- B. From the Azure portal, create an Azure Active Directory (Azure AD) Identity Protection
- C. From the Microsoft 365 compliance center, create an insider risk policy.

D. From the Microsoft 365 compliance center, start a data investigation.

Correct Answer: A

Reference: <https://docs.microsoft.com/en-us/microsoft-365/compliance/dlp-learn-about-dlp?view=o365-worldwide>

QUESTION 3

Your company has a Microsoft 365 tenant.

The company performs annual employee assessments. The assessment results are recorded in a document named AssessmentTemplate.docx that is created by using a Microsoft Word template. Copies of the employee assessments are sent to employees and their managers. The assessment copies are stored in mailboxes, Microsoft SharePoint Online sites, and OneDrive for Business folders. A copy of each assessment is also stored in a SharePoint Online folder named Assessments.

You need to create a data loss prevention (DLP) policy that prevents the employee assessments from being emailed to external users. You will use a document fingerprint to identify the assessment documents. The solution must minimize effort.

What should you include in the solution?

- A. Create a fingerprint of 100 sample documents in the Assessments folder.
- B. Create a sensitive info type that uses Exact Data Match (EDM).
- C. Import 100 sample documents from the Assessments folder to a seed folder.
- D. Create a fingerprint of AssessmentTemplate.docx.

Correct Answer: D

Reference: <https://docs.microsoft.com/en-us/microsoft-365/compliance/document-fingerprinting?view=o365-worldwide>

QUESTION 4

You have a Microsoft 365 tenant.

All Microsoft OneDrive for Business content is retained for five years.

A user named User1 left your company a year ago, after which the account of User1 was deleted from Azure Active Directory (Azure AD).

You need to recover an important file that was stored in the OneDrive of User1.

What should you use?

- A. the Restore-SPODeletedSite PowerShell cmdlet
- B. the OneDrive recycle bin
- C. the Restore-ADObject PowerShell cmdlet

D. Deleted users in the Microsoft 365 admin center

Correct Answer: A

QUESTION 5

HOTSPOT

You have a Microsoft 365 E5 subscription.

You have the data loss prevention (DLP) rule match shown in the following exhibit.

DLP rule matched

Activity details

Activity	Happened
DLP rule matched	May 30, 2022 8:25 PM

About this item

File	User
FW: Doc1.docx	user1@contoso.com
File size	Sensitive info type
1.4 MB	Credit Card Number
DLP policy	DLP rule
Financial Data	Financial Data - High Volume
Policy mode	Rule actions
Enable	ExModerate
Email subject	Email sender
FW: Doc1.docx	user1@contoso.com
Email recipient	
user2@fabrikam.com	

Location details

Location
Exchange
Parent
FW: Doc1.docx
File path
FW: Doc1.docx

Use the drop-down menus to select the answer choice that completes each statement based on the information presented in the graphic. NOTE: Each correct selection is worth one point.

Hot Area:

The email ▼

generated a policy tip when the email was being written
generated an incident report
was forwarded to another user for approval

The Financial Data policy is configured to ▼

enforce DLP rules
test the policy by using notifications
test the policy without using notifications

Correct Answer:

The email ▼

generated a policy tip when the email was being written
generated an incident report
was forwarded to another user for approval

The Financial Data policy is configured to ▼

enforce DLP rules
test the policy by using notifications
test the policy without using notifications

Explanation:

Box 1: Was forwarded to another user for approval

We see Rule actions: ExModerate.

The "moderation" feature we are using is the DLP Action "Forward the message for approval to specific approvers".

The term "moderation" comes from the "ExModerate" Rule Action that is shown in the DLP event Activity Details screen in the Data Loss Prevention Activities Explorer. See attached DLP exmoderate screenshot to see how this looks in my tenant.

As you can see from the Activity Details, you are unable to see the result of the ExModerate Rule Action. Did the approver approve or deny the message? I cannot see that in the Activity Details.

Box 2: enforce DLP rules

Policy mode is enabled.
