QUESTION 1

Which of the following IP packet elements is responsible for authentication while using IPSec?

- A. Authentication Header (AH)
- B. Layer 2 Tunneling Protocol (L2TP)
- C. Internet Key Exchange (IKE)
- D. Encapsulating Security Payload (ESP)

Correct Answer: A

QUESTION 2

Which of the following is the best method of accurately identifying the services running on a victim host?

- A. Use of the manual method of telnet to each of the open ports.
- B. Use of a port scanner to scan each port to confirm the services running.
- C. Use of hit and trial method to guess the services and ports of the victim host.
- D. Use of a vulnerability scanner to try to probe each port to verify which service is running.

Correct Answer: A

QUESTION 3

In the DNS Zone transfer enumeration, an attacker attempts to retrieve a copy of the entire zone file for a domain from a DNS server. The information provided by the DNS zone can help an attacker gather user names, passwords, and other valuable information. To attempt a zone transfer, an attacker must be connected to a DNS server that is the authoritative server for that zone. Besides this, an attacker can launch a Denial of Service attack against the zone's DNS servers by flooding them with a lot of requests.

Which of the following tools can an attacker use to perform a DNS zone transfer? Each correct answer represents a complete solution. Choose all that apply.

- A. Host
- B. Dig
- C. DSniff
- D. NSLookup

Correct Answer: ABD

QUESTION 4

Which of the following malicious software travels across computer networks without the assistance of a user?

- A. Worm
- B. Virus
- C. Hoax
- D. Trojan horses

Correct Answer: A

QUESTION 5

Which of the following are the limitations for the cross site request forgery (CSRF) attack? Each correct answer represents a complete solution. Choose all that apply.

- A. The attacker must determine the right values for all the form inputs.
- B. The attacker must target a site that doesn't check the referrer header.
- C. The target site should have limited lifetime authentication cookies.
- D. The target site should authenticate in GET and POST parameters, not only cookies.

Correct Answer: AB
