QUESTION 1

Collaboration is one of the Scrum principles. Which of the following are the three dimensions of this principle?

- A. Awareness, articulation, and appropriation
- B. Transparency, precision, and coordination
- C. Perfection, cooperation, and comprehension
- D. Honesty, responsiveness, and adaptability

Correct Answer: A

The core dimensions of collaborative work are as follows:

1.

Awareness -- Individuals working together need to be aware of each other's work.

2.

Articulation -- Collaborating individuals must partition work into units, divide the units among team members, and then after the work is done, reintegrate it.

3.

Appropriation -- Adapting technology to one's own situation; the technology may be used in a manner completely different than expected by the designers. Reference: <https://www.scrumstudy.com/whyscrum/scrum-collaboration>

QUESTION 2

A large software company has 8 Scrum teams with each team having a Scrum Master.

After the Daily Standup everyday with their respective teams, all Scrum Masters meet for a Scrum of Scrums. What are they likely to do during this meeting?
