QUESTION 1

According to this 2010 United States Census chart, a variety of types of people earned incomes less than \$30,000 per year.

What percentage of people who earned below \$30,000 in 2010 had no college experience?

- A. 79%
- B. 22%
- C. 13%
- D. 56%

Correct Answer: D

QUESTION 2

Passage 1 "It is obvious that the legal driving age in the United States needs to be adjusted. Although the driving age has been sixteen for many years, studies show that kids of such a young age are not yet capable of understanding the deep responsibility that comes with operating a motor vehicle. Sixteen-year-olds, while old enough to see R-rated movies, are still children in many ways. Psychologists agree that people of this age do not have the cognitive awareness to make major life decisions, yet operating a vehicle on the road forces them to do just that. If the driving age were to be raised to eighteen, there would be far fewer accidents and casualties on the American roadways. People must understand that sixteen-year-old drivers are a danger to themselves and others when allowed to drive unsupervised."

Passage 2 "The legal driving age in the United States has remained the same for many years for one primary reason: it is fair and reasonable. While young, sixteen-year-olds are certainly old enough to undertake the responsibility of driving alone. Because these teenagers are made to practice for a year with a learner's permit and then to pass a test proving their skills, there is no reason to suggest that they cannot handle a motor vehicle effectively. Those that assume that sixteen is too young to drive often forget to consider the large number of responsibilities teenagers already handle on a day-to-day basis in today's world. Things like homework, after-school activities, family responsibilities, and social events all must be carefully maintained in order to make life work. If a sixteen-year-old can handle these daily responsibilities, they can certainly handle driving a car. The legal driving age is fair and should not be negotiated, now or ever."

The author of the first passage would most likely agree with which of these stereotypical statements?

- A. Teenagers are skilled at social and academic planning.
- B. Teenagers don't care about the safety of other drivers.
- C. Teenagers don't practice driving enough before getting a license.
- D. Teenagers often handle their personal responsibilities poorly.

Correct Answer: D

QUESTION 3

If a patient follows the directions correctly, how often could the medicine be taken?

Read the set of directions below to answer the questions.

This formula is for people with deficiencies and anemic conditions. It aids in the body absorption of vital minerals such as iron, calcium, zinc, potassium, and sulfur. Take the following ingredients: Parsley root, Comfrey root, Yellow dock, Watercress, Nettles, Kelp Irish moss. Simmer slowly equal parts of these herbs with four ounces to a half-quart of water. Continue to simmer slowly until the volume of liquid is reduced by half.

Strain, reserve the liquid, and cover the herbs with water once more. Then simmer again for 10 minutes.

Strain and combine the two liquids.

Cook the liquid down until the volume is reduced by half. Add an equal amount of blackstrap molasses.

Take one tablespoon four to five times daily, not exceeding four tablespoons in a 24-hour period.

- A. once every six hours
- B. once every four hours
- C. once every three hours
- D. once every two hours

Correct Answer: A

The dosage indicates not to exceed four tablespoons in a 24-hour period, so the patient should take it no more than every six hours.

QUESTION 4

Harrying the foe with artillery fire and _____ them with fire ships, the English forced the Spanish to _____ their invasion attempt.

- A. dispersing; abandon
- B. ramming; confirm
- C. restricting; rebuff
- D. helping; reconsider
- E. reinforcing; ignore

Correct Answer: A

The sentence obviously describes a war between the British and the Spanish, which was started by an attempt of the Spanish to invade Britain. If, in that attempt, the Spanish were harried (meaning harassed) by the British with artillery fire, what would the Spanish have been forced to do with their invasion attempt? "Abandon" is the best among the given choices for the second missing word. Its pair-word "dispersing" is also equally appropriate for the first missing blank. So, "dispersing; abandon" is the answer.

QUESTION 5

The study crowds and groups is more than _____ in an _____ age characterized by interdependence and action.

- A. academic; collective
- B. difficult; intellectual
- C. vigorous; assertive
- D. Erudite; formal
- E. general; specific

Correct Answer: A
