QUESTION 1

An administrator configures a vCloud Director Provider VDC to use all datastores in the vSphere environment. The administrator then adds a new datastore to the vSphere environment. The administrator attempts to launch a vApp that uses the new datastore, but the datastore is unavailable in vCloud Director. What should the administrator do to make the datastore available in vCloud Director?

A. Disconnect and reconnect the Provider VDC in vCloud Director.

B. Refresh the vCenter Server Storage Profile in vCloud Director.

C. Rescan all data paths and devices in vCenter Server.

D. Add the datastore to a resource pool in vCenter Server.

Correct Answer: B

QUESTION 2

A vCloud Director administrator needs to import an existing vApp in OVF format into MyCloud. What should the administrator do to accomplish this goal?

A. Drag and drop the OVF from the desktop into MyCloud.

B. Deploy the OVF directly from a vSphere client into MyCloud.

C. Upload the OVF directly from local or shared storage into MyCloud.

D. Use the Datastore Browser to upload the OVF from a vSphere datastore into MyCloud.

Correct Answer: C

QUESTION 3

An administrator creates a catalog named "DemoCat" containing vApps and media. Administrators in a separate instance of vCloud Director need access to the catalog objects, including changes. Which feature will allow the remote administrators to subscribe to the DemoCat catalog?

A. Object Taxonomy

B. External Publishing

C. Catalog Sharing

D. Content Endpoints

Correct Answer: B

QUESTION 4

A vSphere administrator needs to migrate a virtual machine from one host to another. The virtual machine

.vswp file resides in local storage.

Which two techniques can the administrator use to migrate the virtual machine? (Choose two.)

A. vMotion migration

B. Cold migration

C. Storage vMotion migration

D. Enhanced vMotion migration

Correct Answer: AB

QUESTION 5

Which two tools should an administrator use to prepare and implement VXLAN? (Choose two.)

A. vShield Manager

B. vShield Endpoint

C. vSphere Web Client

D. vCloud Director

Correct Answer: AC
