### QUESTION 1

What is the purpose of the Steward process in a global cluster?

- A. to provide a backup communication link on each cluster in a global cluster configuration that takes over heartbeating in the event that the wide-area connector (WAC) faults
- B. to monitor the wide-area connector (WAC) processes on each local cluster on a global cluster configuration and ensure heartbeats are being sent
- C. to monitor the wide-area connector (WAC) processes on each local cluster on a global cluster configuration and restart the wide area connector (WAC) process if they fail
- D. to provide an inquiry mechanism for each local cluster in a global cluster configuration and determine the state of other clusters if heartbeats are undetected on the wide-area connector (WAC)

Correct Answer: B

### QUESTION 3

An administrator is configuring a websp service group and a dbsg service group. The administrator needs to configure Veritas Cluster Server so websp will only come online if dbsg is online somewhere in the cluster.

If dbsg faults, websp should stay online. If dbsg is unable to fail over, the websp should stay online.

Which type of service group dependency does this require?

- A. online global soft
- B. online global firm

- C. online local soft
- D. online remote soft

Correct Answer: A

---

#### QUESTION 4

The Oracle database administrator needs to shut down the Veritas Cluster Server (VCS) controlled database to apply patches. The manual shutdown the database may cause VCS to fail over the service group. Which command can the administrator run to prevent VCS from responding to the intentional Oracle database shutdown?

- A. hagrp –flush
- B. hagrp –freeze
- C. hatype –freeze Oracle
- D. hares –ignoreparent

Correct Answer: D

---

#### QUESTION 5

An administrator wants to configure a custom event trigger to be invoked when the online script fails to execute and ManageFaults = NONE. Which trigger should the administrator configure?

- A. resstatechange
- B. resfault
- C. postonline
- D. resadminwait

Correct Answer: A
