### QUESTION 1

A user's Search Policy is configured as shown: Which two actions will the Search Policy allow the user to perform if the user has Full Control permissions to all relevant archives in Enterprise Vault Search? (Select two.)

- A. move an item from one File System Archive to another File System Archive
- B. move an item from an SMTP Archive to an Exchange Journal Archive
- C. copy an item from an Exchange Journal Archive to an Exchange Mailbox Archive
- D. copy an item from a File System Archive to the original file server
- E. move an item from one Exchange Mailbox Archive to another Exchange Mailbox Archive

Correct Answer: AE

## QUESTION 2

A Veritas Enterprise Vault 12.3 administrator activated Auditing at the Directory level. During this process, the administrator created the audit database and can log onto the SQL server without errors. When checking the content of the audit database, the administrator notices that nothing is being audited.

How should the administrator resolve this issue?

- A. after enabling on the Enterprise Vault Directory, restart the Enterprise Vault Admin Service level
- B. enable Auditing in the Exchange Server properties in the VAC and select the auditing options
- C. enable Auditing in the Enterprise Vault Server properties in the VAC and select the auditing options
- D. enable Auditing in the Enterprise Vault Site properties in the VAC and select the auditing options

Correct Answer: C

---

## QUESTION 3
