QUESTION 1

The customer has an existing SAN for their AIX servers and they want to add their Windows servers. What would be the lowest cost solution to utilize the existing SAN storage pool while adding the Windows servers?

- A. IBM Cisco MDS 9513
- B. IBM System Storage N3700
- C. IBM System Storage DS5300
- D. IBM System Storage N5300 Gateway

Correct Answer: D

QUESTION 2

Which of the following data retention solutions is considered to be the market share leader?

- A. HP RISS
- B. EMC Centera
- C. IBM System Storage DR550
- D. NetApp FAS3000 with SnapLock

Correct Answer: B

QUESTION 3

Which of the following needs careful planning and management when a mixture of open systems and System z are simultaneously accessing the same subsystem?

- A. Drive attachment interfaces
- B. Host attachment interfaces (host ports)
- C. Subsystem Bus technology to isolate incompatible data
- D. Spare disk drives to ensure all hosts have assigned spares

Correct Answer: B

QUESTION 4

A customer would like to purchase a 2054-E04 Cisco Director and extend the standard warranty. Which of the following will accomplish this?

- A. A warranty cannot be extended on the 2054-E04
- B. Submit a special bid or contact Cisco directly
- C. This isn't handled locally. Contact IBM Global Services for custom service contract.
- D. There are different tools in different countries; so check locally for best practice

Correct Answer: D

QUESTION 5

A customer has a mixture of DS8000, DS5000 and a tape library. They have expressed a concern that the storage is not being utilized effectively. You have been asked to present a short presentation on Information Lifecycle Management. Which of the following is a key point to highlight during the presentation?

- A. Running Global Mirror for remote replication
- B. Archiving infrequently accessed data to less expensive storage
- C. Consolidating multiple storage controllers to one disk solution
- D. Migrating data to new tape technology to increase library capacity

Correct Answer: B

QUESTION 6

A customer's zSeries operations manager has been complaining that their midnight batch cycle is overrunning into first shift and adversely affecting response time. Additionally, the customer is concerned that they are wasting money on additional 3592 tape cartridges because partially filled tape cartridges are being ejected from their 3494 library and going off site. Which IBM product would best satisfy these requirements?

- A. IBM System Storage TS3500
- B. IBM System Storage TS7700
- C. IBM System Storage TS3310
- D. IBM System Storage TS1120

Correct Answer: B

QUESTION 7

A customer using an n5300 Model A10 filer is discovering a need to improve data availability. Their last failure caused them to be down for two hours. The IT manager wants to stay with IP based storage. What cost-effective action should the customer take to reduce future downtime of the filer?

- A. Upgrade to an n5600.

- B. Add SnapLock to protect the data.
- C. Add a second controller and ClusterFailover (CFO).
- D. Add SnapMirror to replicate to a separate N series filer.

Correct Answer: C

QUESTION 8

A customer is using LAN-based Tivoli Storage Manager for backups and plans to increase the number of servers in the data center to be backed up. Which one of the following options should be suggested if no new disk space can be purchased?

- A. Add an additional TSM server.
- B. Add an IBM SAN Volume Controller.
- C. Implement GPFS to increase the disk pool.
- D. Add Virtual Tape Library and implement LAN-free backups.

Correct Answer: C

QUESTION 9

Which of the following software applications provides non-erasable and non-rewriteable data protection on the IBM System Storage N3700?

- A. SnapLock
- B. SnapShot
- C. SnapVault
- D. SnapMirror

Correct Answer: A

QUESTION 10

A customer has a mixed environment of MainFrame Systems, Unix servers and Windows servers. Each platform has its own, different backup software utility. The customer wants to centralize operations, improve their backup times, and lower the cost of ownership to maintain each backup utility. What would you propose as the best solution for their needs?

- A. Install a TS3200.

- B. Install TSM for LAN free backup.
- C. A separate TS3500 for each platform.
- D. Install TSM and a TS3500 with TS1120 tape drives.

Correct Answer: D

QUESTION 11

A customer has a heterogeneous server and storage environment with multiple IBM Power Storage DS5100 as well as HDS storage subsystems. The customer plans to consolidate their servers to the DS5100. What is the correct resource to determine whether the servers are supported?

- A. IBM System Sales homepage
- B. IBM Customer Engineer (CE)
- C. SUN interoperability matrix
- D. IBM interoperability matrix

Correct Answer: D

QUESTION 12

What three components of TotalStorage Productivity Center (TPC) are included in TPC Standard Edition?

- A. Disk, Fabric and Data
- B. Data, Disk and Monitoring
- C. Disk, Replication and Fabric
- D. Data, Fabric and Replication

Correct Answer: A
