### QUESTION 1

You are designing a website for a wedding planner. She wants all of the text on her site to be displayed in a flowery, elaborate typeface, similar to a wedding invitation. You advise her to consider using a simpler, more conventional typeface. Why?

- A. Script and fantasy typefaces are not allowed on websites; they are reserved for printed documents only.
- B. Text set in a fantasy typeface must be converted to images, which will make web page layout more difficult, and slower to load.
- C. Script and fantasy typefaces display at smaller sizes, making them hard to read.
- D. Special script or fantasy typefaces may not be installed on her visitors' devices, and must be downloaded from a server as a custom web font.

Correct Answer: D

---

### QUESTION 2

During the evaluation of user feedback from usability testing of a web site project, it is determined that users typically get lost within the site, get confused by "mystery meat" graphical links and are not able to complete tasks as directed.

Which of the following UI design patterns would help correct this issue?

- A. Navigation wizards
- B. Image zoom
- C. Navigation tabs
- D. Progressive disclosure

Correct Answer: C

---

### QUESTION 3

You have built a website that incorporates responsive web design. However, Google has notified you that your site is not mobile-friendly. They report that several links are too close together.

Which of the following practices will resolve this issue?

- A. Optimize for touchscreen gestures
- B. Modify all links to text
- C. Modify all links to graphics

D. Arrange the links to different areas of the page

Correct Answer: A

---

#### QUESTION 4

you are consulting on the web site design for a young lawyer who is starting a new legal practice in environmental law. She wants the site to feature hot pink and bright green colors, to represent her youthful new approach to solving legal problems. You advise her to consider a neutral color scheme based on gray and blue instead. Which of the following best supports your recommendation?

- A. Her preferred color scheme is offensive to you as the web site designer.
- B. Her preferred color scheme is difficult to read, which will prevent users from exploring the website.
- C. Her potential clients will respond better to the authoritative professional tone of the neutral colors.
- D. Her potential client's computer devices will not be able to display pink and green very well, which will cause them to exit the site.

Correct Answer: C

---

#### QUESTION 5

Luke's web design team has decided to implement the agile Web design process. He has been assigned to write some JavaScript code that will assist in form field validation.

What phase of the agile Web design process is he currently in?

- A. The test phase
- B. The delivery phase
- C. The develop phase
- D. The design phase

Correct Answer: C

---

#### QUESTION 6

Which of the following is the preferred standard for responsive web design?

- A. Use Flash to control the appearance of the site and capture browser information.
- B. Use JavaScript to set all CSS style and control interactivity.
- C. Use CSS to organize the information and HTML to control the appearance of the site.

D. Use HTML to format the web site and CSS to control the appearance of the site.

Correct Answer: D

---

#### QUESTION 7

The participatory design process includes which of the following techniques?

- A. Discovery, evaluation, prototype
- B. Surveys, testing, release
- C. Testing, review, redesign
- D. Analysis, design, prototype

Correct Answer: D

---

#### QUESTION 8

Which of the following would be defined during the functionality part of a site specification?

- A. The structure of the information contained in the site incorporates an intuitive navigational scheme
- B. Tasks the site will be able to perform, such as a detailed product search or managing products in a virtual shopping cart
- C. The look and feel of a site, such as typography, color schemes, images, and spacing
- D. The content contained in the site, such as text describing the business and products, images, and video files

Correct Answer: B

---

#### QUESTION 9

Consider the following image.

What kind of Web site would benefit most from this kind of layout?

- A. A dictionary of definitions for slang words and phrases
- B. A social media site promoting movies through video trailers
- C. A photo gallery site for clothing fashions
- D. A general newspaper site, with many images and videos

Correct Answer: D

#### QUESTION 10

Which of the following is a recommended method in the W3C standards in the operability category to improve accessibility of a web site on a tablet computer?

- A. Provide a virtual magnifying glass that enlarges portions of a website.
- B. Placing critical information at the top of the page.
- C. Provide adequate contrast to make onscreen content visible in bright environments.
- D. Provide workarounds for actions triggered by physically moving the tablet.

Correct Answer: B
