### QUESTION 1

You have several reference computers. The computers are configured to always start from a local hard disk drive.

You plan to capture the reference computers.

On each reference computer, you connect a USB flash drive (UFD) that contains an installation of Windows Preinstallation Environment (Windows PE).

You need to ensure that the reference computers start automatically by using Windows PE from the UFD.

What should you do?

- A. From the System Properties, modify the Startup and Recovery settings.
- B. From the System Configuration utility, modify the Boot settings.
- C. Run bcdedit.exe and modify the boot configuration data (BCD) store.
- D. From the BIOS options, modify the startup order.

Correct Answer: D

---

### QUESTION 2

Your company plans to implement a deployment environment.

The company identifies the following requirements for the planned implementation:

A manager at the company recommends deploying generalized images from a network share.

You need to identify which requirements the recommendation meets.

Which two requirements should you identify? Each correct answer presents part of the solution.

- A. Automatically start the deployment only when 10 computers are ready for installation.
- B. Ensure that all customers accept the EULA the first time they start their computer.
- C. Use the least amount of network traffic to deploy images.
- D. Install multiple computers simultaneously.

Correct Answer: BD

---

### QUESTION 3

You need to prepare a hard disk for a Unified Extensible Firmware Interface (UEFI)-based computer. Which three actions should you perform? (Each correct answer presents part of the solution.)

- A. Format the Windows partition by using NTFS.
- B. Format the Windows partition by using FAT32.
- C. Create an EFI partition.
- D. Convert the hard disk to a GPT disk.
- E. Mark the system partition as active.

Correct Answer: CDE

---

#### QUESTION 4

You have a Windows image.

You are testing the Out-of-Box-Experience (OOBE).

You discover that when neither a keyboard nor a mouse is connected, the Human Interface Device (HID) pairing instructions do not appear.

You need to ensure that the HID pairing instructions appear when the image starts on a client computer that had neither a keyboard nor a mouse connected.

Which file should you create?

- A. Unattend.xml
- B. Oobe.xml
- C. Sysprep.inf
- D. Coconfig.xml

Correct Answer: B

---

#### QUESTION 5

You have a Windows image that is configured to start to the Windows Welcome screen.

You need to ensure that the image starts in audit mode.

You mount the image.

What should you do next?

- A. Create an answer file named audit.txt. Copy the answer file to the Windows folder in the image.

- B. Create an answer file named Audit.xml. Copy the answer file to the Windows\Panther\Unattend folder in the image.
- C. Create an answer file named Unattend.xml. Copy the answer file to the Windows\Panther\Unattend folder in the image.
- D. Create an answer file named Unattend.txt. Copy the answer file to the Windows folder in the image.

Correct Answer: C

---

#### QUESTION 6

You purchase a System Builder pack for Windows 10 Pro and plan to perform an installation by using a Personal Use License. What should you do first to receive support for the installation?

- A. change the license
- B. contact a Microsoft Authorized Distributor
- C. contact Microsoft
- D. contact the OEM system builder

Correct Answer: B

You need to purchase a full retail license for personal use.

---

#### QUESTION 7

You plan to perform a Windows installation on a reference computer named Computer1.

You need to identify the location of the log files that will be created when Setup accesses the local drive.

Which location should you identify?

- A. X:\\$windows~bt\Sources\Panther
- B. %windir%\Logs\
- C. %windir%\Panther\
- D. X:\\$windows.~bt\Sources

Correct Answer: C

---

#### QUESTION 8

A customer plans to deploy Windows Server 2012 Standard to several servers.

The customer identifies the following hardware requirements for the planned deployment:

You need to identify which two requirements are met by the planned deployment of Windows Server 2012.

Which two requirements should you identify? Each correct answer presents part of the solution.

- A. Must be able to back up the server data to a tape device.
- B. Must support three-way mirrors without the installation of third-party management software.
- C. Must support NIC teaming without the installation of third-part management software.
- D. Must be able to run on an x86 hardware platform.

Correct Answer: BC

---

#### QUESTION 9

You plan to deploy Windows 10 on several computers by using images. The computers will contain a Push Button Reset (PBR).

You need to ensure that the computer configuration supports PBR.

Which computer configurations must be available?

- A. a recovery image file
- B. a DVD drive that contains the installation media
- C. a full system backup
- D. a recovery partition

Correct Answer: D

---

#### QUESTION 10

You plan to install operating systems on 500 client computers by using the sources files located in a network share.

You need to identify which operating system must be installed on the computer that hosts the share. The solution must ensure that 25 computers can correct concurrently to the share.

Which two possible operating systems achieve this goal? Each correct answer presents a complete solution.

- A. Windows Server 2008 R2 Standard
- B. Windows 10 Pro
- C. Windows 7 Ultimate
- D. Windows 8 Enterprise
- E. Windows Server 2012 Standard

Correct Answer: AE

---

### QUESTION 11

You have the Windows Assessment and Deployment Kit (Windows ADK) installed.

You create a Windows Preinstallation Environment (Windows PE) image.

While resting the deployment of the Windows PE image, you discover that the Windows PE installation becomes unresponsive. You discover that you are exceeding the memory capacity of the RAM disk.

You need to increase the memory capacity of the RAM disk used by the Windows PE image.

You mount the Windows PE image.

Which command should you run next?

- A. `dism /image:c:\images\wpe /scratchdir:c:\images\wpe`
- B. `dism /image:c:\images\wpe /set-scratchspace:256`
- C. `dism /online / set-scratchspace:256`
- D. `dism /cleanup-wim`

Correct Answer: B

---

### QUESTION 12

You install Windows on a computer named Computer1.

You add an answer file to Computer1 that modifies the user experience when the computer starts for the first time.

You plan to capture Computer1 and then deploy the image to several computers.

You need to verify the user experience when the computer starts for the first time.

What should you run on Computer1? To answer, select the appropriate option for each list in the answer area

Hot Area:

Answer Area

Setup.exe	/audit	/reboot
Sysprep.exe	/generalize	
Userinit.exe	/oobe	
Wininit.exe		

Correct Answer:

Answer Area

Setup.exe	/audit	/reboot
Sysprep.exe	/generalize	
Userinit.exe	/oobe	
Wininit.exe
