### QUESTION 1

An international company has an existing TM1 server application they use for planning, forecasting, and reporting. The corporate strategy department wants to share parts of this application with external consultants and partners. They decide to create Cognos Insight workspaces which includes data from this server application combined with additional analysis and content. They intend to distribute a single workspace ".cdd" file to the recipients.

How should they integrate the TM1 server data with additional content resulting in distributable Cognos Insight workspace files?

- A. Connect to the server using Distributed Mode, save the workspace and then modify as needed.
- B. Drag and drop TM1 cube views and subsets into the workspace, save the workspace and then modify as needed.
- C. Connect to the server using Connected Mode, save the workspace and then modify as needed.
- D. Import TM1 cube views and subsets, save the workspace and then modify as needed.

Correct Answer: D

---

### QUESTION 2
