QUESTION 1

Which configuration allows for greater concurrency of read and write operations on the same cube object?

- A. Persistent Feeders
- B. Skipcheck
- C. Parallel Interaction
- D. Data Reservation

Correct Answer: C

QUESTION 2

A user is only allowed to enter data into cubes for the East region. The user should not be able to see entries for the West, North, and South regions.

To provide this level of access, which security should be set?

- A. Set access to "None" for dimension elements West, North, and South and "Read" for East.
- B. Set access to "Read" for dimension elements West, North and South and "Write" for East.
- C. Set access to "None" for dimension elements West, North and South and "Write" for East.
- D. Set access to "None" for dimension elements West, North and South and "Read" for East.

Correct Answer: C

QUESTION 3

Besides the TM1 Data Directory, which three files should be backed up when backing up a TM1 configuration? (Choose three.)

- A. tm1admsrv.ini file
- B. windows.ini file
- C. web.config file
- D. tm1p.ini file
- E. documents.ini file

Correct Answer: ACD

QUESTION 4

You must configure an online backup for running a TM1 application. Which statement is true in this scenario?

- A. You must exclude TMIs.cfg files from the files to be backed up.
- B. You must exclude all log files from the files to be backed up.
- C. You must execute a SaveDataAll function before the backup.
- D. You must execute a PrepareBackup function before the backup.

Correct Answer: C

QUESTION 5

You are designing a TM1 application that will be deployed to over a hundred contributors who are scattered across the globe. Performance and a zero footprint on the user's desktop are important requirements.

Which TM1 interface should you use?

- A. TM1 Excel workbooks deployed using the TM1 Excel Add-in
- B. TM1 Cube View deployed through Server Explorer or TM1 Performance Modeler
- C. Cognos Insight
- D. TM1 Web Views deployed through TM1 Web

Correct Answer: D

QUESTION 6

What are three primary benefits for deploying TM1 Web in your organization? (Choose three.)

- A. To enable users access to TM1 data using a Web browser
- B. To enable Cognos Insight
- C. To support the TM1 Application Web client in TM1 Applications
- D. To support interoperability with IBM Cognos Business Intelligence (B1) components
- E. To support TM1 Perspectives for Excel on the Web

Correct Answer: ACD

QUESTION 7

A report that you have published for viewing on the Web is not showing up in TM1 Web. Support has recommended to increase the log level to see if any errors are captured on the Web server.

Which file do you need to edit?

- A. tm1s-log.properties
- B. web.config
- C. tm1s.cfg
- D. tm1p.ini

Correct Answer: B

QUESTION 8

You must create a batch file to start a TM1 T1 process using the command line with a defined user and password.

What should you do to protect the password?

- A. Create a password with non-printable characters and use it in the command line parameter.
- B. Store the password encrypted in a system cube in TM1 and reference it in the command line to the cube cell.
- C. Encrypt the password with the TM1 Crypt tool and use it in the command line parameter.
- D. Encrypt the password with the TM1 Crypt tool and reference it in the command line to the generated file.

Correct Answer: D

QUESTION 9

A customer will be using TM1 Applications and wants to integrate with their current BI server for authentication.

Which security mode setting should they set in their tm1s.cfg file for the IntegratedSecurityMode parameter?

- A. 5
- B. 4
- C. 3
- D. 2

Correct Answer: A

QUESTION 10

You want to create documentation which is stored on the TM1 Server. You need to create a cube in which you can hold user entered text comments on all processes on the TM1 Server.

Which two dimensions would you use? (Choose two.)

- A. The \}Processes control dimension

- B. A dimension with a string item
- C. \}ConnectionProperties controldimension
- D. The \}PerfCubes control dimension

Correct Answer: AB
