QUESTION 6

Minh supports the Change Control database. He has been asked if he can change the "by Month" Calendar view so that the days that are outside of the selected month are displayed with a light gray background and dark gray text.

What can Minh do to address this request?

- A. Create a hidden column immediately before the StartDate column in the view. Select the "Use value as color" option. Code a formula to evaluate to one set of RGB values for Background and Text if the date is in the current month, and a different set of RGB values for dates outside the current month.
- B. Modify the "Date Area" option on the View properties Styles tab. Select a light gray background and set the Text color to dark gray. Modify the colors for background and text in the Current option area to differentiate the gray scheme.
- C. Modify the "Monthly" option on the View properties Styles tab. Select a light gray color for the "Not current" color, and select a dark gray color for the Text color.

D. This request cannot be met completely, but Minh can set the Body Background color for the entire view on the View properties Styles tab. He can then control the Text colors by creating a hidden column set to "Use value as color", and by coding a column value formula to evaluate to RGB values.
