A. Formula field

B. Email Field

C. Text Field

D. Lookup field

Correct Answer: BC

QUESTION 6

Universal Containers has a custom project evaluations object used by three business teams. Business team managers have requested that project evaluations be tracked and managed independently of each other with different set of custom fields and picklist values.

What is minimally required configuration to accomplish this?

A. With a custom project evaluation object, create separate record types with different picklist values and page layouts for each team. Create and assign separate profiles by team.

B. Create separate page layouts to determine the fields and picklist values for each user based on the team indicated on their user record. User field-level security to restrict access to each team\\'s fields.

C. Create separate custom objects to track project evaluations independently of each other with record types and page layouts. Assign custom objects permissions with three different profiles.

D. With a custom project evaluation object, create a separate page layout for each team and assign them using a profile. Use permission sets to configure each team\\'s field list and picklist values.

Correct Answer: B

QUESTION 7

The VP of Sales has requested that Account Site information should be visible on all Opportunity records.

What is the recommended solution to meet this requirement?

A. Roll-Up Summary Field

B. Cross-Object Formula Field

C. Process Builder

D. Workflow Rule

Correct Answer: B

QUESTION 8

Universal Containers would like to automatically assign a specific permission set to new users. How can this requirement be met? Choose 2 Answers

A. Create an approval process on the User object to assign a permission set

B. Create a flow on the user object to assign a permission set.

C. Create a lightning process on the user object to launch a flow.

D. Create a workflow rule on the User object to assign a permission set.

Correct Answer: BC

QUESTION 9

Which two are true statements about record types? (Choose two.)

A. They can be used to control user role hierarchy.

B. They allow different page layouts and mandatory fields.

C. They can be enabled by profile and permission set.

D. They allow different picklist values for all picklist fields.

Correct Answer: BC

QUESTION 10

In Salesforce Classic, Universal Containers provides access to Salesforce for their Customer Support and Sales Operations teams. Management wants to ensure that when users log in, their home tab provides access to links and documentation that are specifically relevant to their team\\'s function.

How can this requirement be met?

A. Create three home page custom components and three layouts; assign users by team.

B. Create three home page custom components and three layouts; assign user by profile.

C. Create two home page custom components and two layouts; assign to users by team.

D. Create two home page custom components and two layouts; assign to users by profile.

Correct Answer: D

QUESTION 11
