QUESTION 1

Select the meaning of the underlined word in the sentence.

The doctors who were participating in rounds wanted to know the patient's status as of this morning.

- A. bias
- B. peak
- C. condition
- D. cognizance

Correct Answer: C

QUESTION 2

Which of the following sentences has correct subject-verb agreement?

- A. The ambulance, which had flashing red lights on top, were letting other vehicles on the road know to pull over.
- B. Either kale or spinach is a healthy vegetable to eat with dinner.
- C. One of the soccer players kick the ball farther than his other teammates.
- D. Several of the pieces of art was sold for above-average prices.

Correct Answer: B

QUESTION 3

Food away from home (FAFH) has been associated with poor diet quality in many studies. It is difficult, however, to measure the effect of FAFH on diet quality since many unobserved factors, such as food preferences and time constraints, influence not just our choice of where to eat, but also the nutritional quality of what we eat. Using data from 1994-96 and 2003-04, this study applies fixed-effects estimation to control for such unobservable influences and finds that, for the average adult, FAFH increases daily caloric intake and reduces diet quality. The effects vary depending on which meals are consumed away from home. On average, breakfast away from home decreases the number of servings of whole grains and dairy consumed per 1,000 calories and increases the percent of calories from saturated and solid fat, alcohol, and added sugar (So FAAS) in a day. Dinner away from home reduces the number of servings of vegetables consumed per 1,000 calories for the average adult. Breakfast and lunch away from home increase calories from saturated fat and So FAAS on average more among dieters than among non-dieters. Some of the overall negative dietary effects decreased between 1994-96 and 2003-04, including those on whole grain, sodium, and vegetable consumption.

What is the meaning of the word "associated" in the first paragraph?

- A. specialized
- B. predated
- C. connected
- D. obfuscated

Correct Answer: C

QUESTION 4
