QUESTION 3

HOTSPOT Hot Area:

The method of communication between a client and the server

	▼
Protocol	
Script footprint	
Transaction	
Virtual User or VUser	
Scenario	
VUser Script	

The recorded actions of a business process performed in your application

	▼
Protocol	
Script footprint	
Transaction	
Virtual User or VUser	
Scenario	
VUser Script	

Emulates the actions of human users working on your system

	▼
Protocol	
Script footprint	
Transaction	
Virtual User or VUser	
Scenario	
VUser Script	

Defined by the quantities of the various resources that are required on a load generator in order to execute the VUser script: typical

	▼
Protocol	
Script footprint	
Transaction	
Virtual User or VUser	
Scenario	
VUser Script	

Defines the events that occur during a testing session, based on performance requirements

	▼
Protocol	
Script footprint	
Transaction	
Virtual User or VUser	
Scenario	
VUser Script	

You define it, to measure the performance of your system: it enables you to measure how long it takes to perform a set of steps

	▼
Protocol	
Script footprint	
Transaction	
Virtual User or VUser	
Scenario	
VUser Script	

Correct Answer:

The method of communication between a client and the server	Protocol Script footprint Transaction **Virtual User or VUser** Scenario VUser Script
The recorded actions of a business process performed in your application	**Protocol** Script footprint Transaction Virtual User or VUser Scenario VUser Script
Emulates the actions of human users working on your system	Protocol Script footprint Transaction Virtual User or VUser Scenario **VUser Script**
Defined by the quantities of the various resources that are required on a load generator in order to execute the VUser script typical	Protocol Script footprint **Transaction** Virtual User or VUser Scenario VUser Script
Defines the events that occur during a testing session, based on performance requirements	Protocol **Script footprint** Transaction Virtual User or VUser Scenario VUser Script
You define it, to measure the performance of your system. It enables you to measure how long it takes to perform a set of steps	Protocol Script footprint Transaction Virtual User or VUser **Scenario** VUser Script

QUESTION 4
