**QUESTION 1**

**HOTSPOT**

A customer wants the ability to manage and push updates to all of their Gen10 servers from one interface. Click on the iLO 5 feature that gives them the ability to do this.

Hot Area:

Correct Answer:

## QUESTION 2

What memory uses HPE Smart Battery backup power?

- A. Load Reduced Memory
- B. Persistent Memory
- C. Smart Memory
- D. Standard Memory

Correct Answer: B

## QUESTION 3

How can you streamline the BIOS setting choices during initial installation of an HPE ProLiant DL380 Gen10 server to meet customer needs?

- A. Use Preconfigured Workload Profiles.

- B. Retrieve predefined settings from iLO.
- C. Use Legacy BIOS settings instead of UEFI.
- D. Use the Custom setting in Legacy BIOS.

Correct Answer: A

---

#### QUESTION 4

A customer needs the perform rapid checkpoint and restores of the data on their data analytics database.

What questions should you ask to determine whether to deploy HPE Scalable Persistent Memory or HPE NVDIMMs to meet their requirements? (Select two.)

- A. What is your system disk architecture?
- B. What level of fault tolerance is necessary?
- C. Are all the existing servers Gen10?
- D. Who is your current vendor for servers?
- E. Which Operating System will be installed?

Correct Answer: AC

#### QUESTION 5

A customer is interested in purchasing new servers, to update their environment which currently has servers that are 5 years old. What customer information is needed to help provide the correct solution? (Select three.)

- A. whether they require multi-core processors
- B. whether they will need to physically move the memory options to new systems
- C. what growth do they expect in the next 3 years
- D. how much free space is available in their current data center
- E. what applications they currently run

Correct Answer: BCE

---

#### QUESTION 6

As a part of the design implementation you have to configure iLO networking settings for some HPE ProLiant DL servers. Which HPE tool can be used to configure the settings?

- A. HPE OneView
- B. HPE Intelligent Provisioning
- C. iLO Amplifier
- D. HPE Onboard Administrator

Correct Answer: B

---

#### QUESTION 7

A customer needs a RAID storage solution with the most storage space available that also provides fault tolerance against potential disk driver failures. The existing customer environment has a server with 8 SAS disk drives installed. Which RAID level should the customer use?

- A. RAID 0
- B. RAID 1
- C. RAID 5
- D. RAID 6

Correct Answer: D

---

#### QUESTION 8

A customer needs to evaluate the ability of Gen10 servers to remove all data so that it is irrecoverable before decommissioning the server.

Which feature would the customer be evaluating for a PoC?

- A. Secure Erase
- B. Silicon Root of Trust
- C. Automatic Secure Recovery
- D. FIPS 140-2

Correct Answer: A

---

#### QUESTION 9

A customer wants to present some drives from D3940 Storage Module to the HPE Synergy compute module. Which tool can be used to complete this task?

- A. HPE Image Streamer
- B. Global Dashboard

- C. HPE Composer
- D. HPE Smart Storage Administrator

Correct Answer: C

---

#### QUESTION 10

A customer wants to evaluate the new feature in iLO5 that provides the ability to permanently erase all data on a server. What iLO5 license will the customer require for this proof of concept (PoC)?

- A. iLO Advanced Premium Security
- B. iLO Advanced
- C. iLO Standard BladeSystem Edition
- D. iLO Standard

Correct Answer: A

---

#### QUESTION 11

A customer is hosting an application and wants to test Jitter Smoothing to determine if it will help improve application performance.

Which combination of HPE hardware and software will allow them to accomplish this task?

- A. HPE iLO 5 with iLO Advanced license
- B. HPE iLO 4 with iLO Advanced Premium Security Edition license
- C. HPE iLO 5 with Standard license
- D. HPE iLO 4 with iLO Advanced license

Correct Answer: C

---

#### QUESTION 12

Which technology provides the lowest latency and high bandwidth within high-performance environment?

- A. Ethernet
- B. Fibre Channel
- C. iSCSI
- D. InfiniBand

Correct Answer: D

---

### QUESTION 13

The HPE 800W Flex Slot Platinum Plus Hot Plug Low Halogen Power Supply has a built-in Lithium Ion battery to provide backup power to which component?

- A. Workload Accelerators
- B. Smart Array Flash cache
- C. Load Reduced DIMMS
- D. Persistent Memory

Correct Answer: D

---

### QUESTION 14

Which workloads are appropriate for a DL580 Gen10 Server? (Select three.)

- A. business processing and intelligence
- B. data warehousing
- C. file and print
- D. IIS web server
- E. SAP HANA

Correct Answer: ABC

---

### QUESTION 15

A customer has the following requirements:

5TB of local storage to host a 3TB application

iL05 Service Port to download AHS logs and remote console

1x - HPE 400GB SATA 6G Write Intensive SFF (per server)

You propose the following solution:

3x - HPE ProLiant DL380 Gen9

6x - HPE 1TB SATA 6G Midline 7.2 SFF (per server)

What must be changed in your proposal to meet all of the customer requirements?

- A. HPE iLO Advanced license

- B. HPE ProLiant DL380 Gen10
- C. HPE iLO Advanced Premium Security Edition
- D. HPE Smart Array SR Secure license

Correct Answer: B
