QUESTION 1

Security policies need to be configured for a newly developed Pega application using basic credential authentication. The lockout policy configuration must lock out users after three failed login attempts. The configuration must exclude Administrator or Executive operators from the lockout.

How do you achieve this requirement?

- A. Define operator override setting in enterprise authentication system
- B. Create a separate role for Admin Executives
- C. Use Exclude Operators options in Security Policies landing page
- D. Define Access Control Policy to exclude Admin Executives

Correct Answer: A

QUESTION 2

DRAG DROP

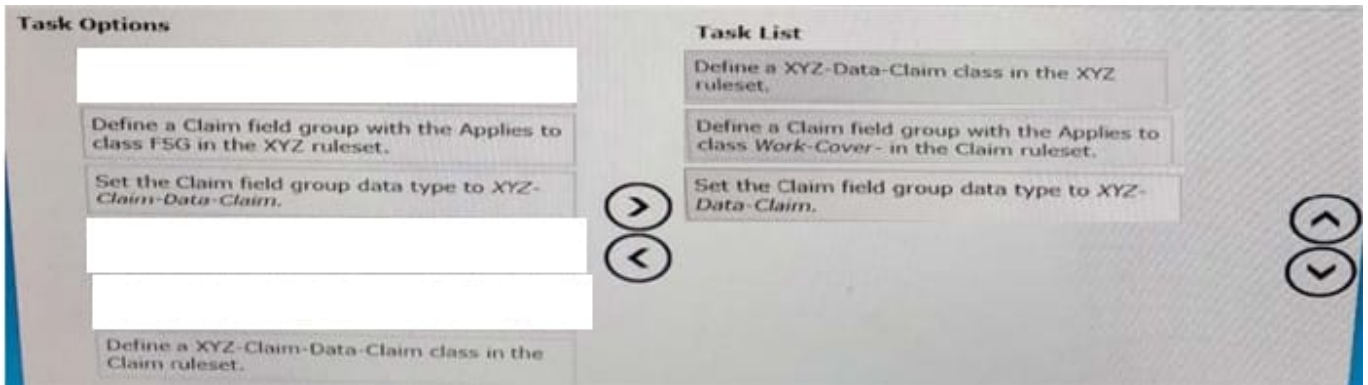

XYZ Inc.'s COE wants case life cycle developers to use a field group named "Claim" regardless of the application being developed.

Select and move the three tasks that the COE performs for this requirement to the Task List column and place them in the correct order. (Choose Three)

Select and Place:

Task Options	Task List
Set the Claim field group data type to XYZ-Data-Claim.	
Define a Claim field group with the Applies to class FSG in the XYZ ruleset.	
Set the Claim field group data type to XYZ-Claim-Data-Claim.	
Define a Claim field group with the Applies to class Work-Cover- in the Claim ruleset.	
Define a XYZ-Data-Claim class in the XYZ ruleset.	
Define a XYZ-Claim-Data-Claim class in the Claim ruleset.	

Correct Answer:

QUESTION 3

When do you use the load-datapage activity method?

- A. To refresh a data page
- B. To queue the data page for a default agent
- C. To initiate the loading of a data page
- D. To run a connector asynchronously

Correct Answer: C

QUESTION 4

A pega application has cases that represent customer accounts each with many members.

When a member of a customer account registers with the application through an offline component, a related registration transaction is recorded. An advanced agent updates the customer account cases with new members. The application is running in a multimode system and advanced agents are enabled on all nodes. Which two elements are valid design choices? (choose two)

- A. Use the optimistic locking option on the case types.
- B. Create a Registration subcase configured to run in offline mode.
- C. Leverage the default object lock contention requeuing capability.
- D. Override DetermineLockString to use .AccountID instead of .pyID as the lock string.

Correct Answer: BC

QUESTION 5

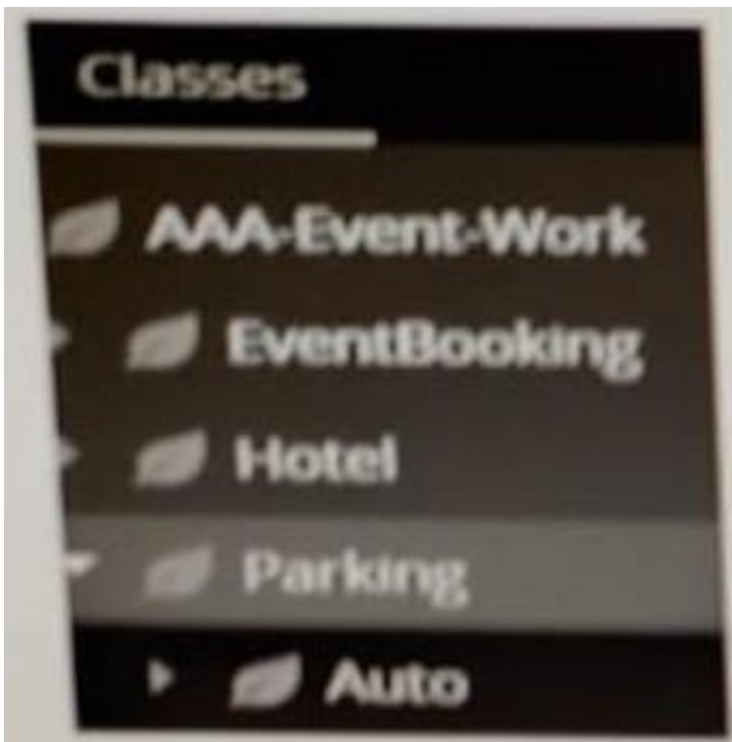

You need to create custom workspaces for the manager and for the Customer service representative (CSR). Also, you are asked to display some properties in custom formats that are not supported by Pega. Which approach satisfies these requirements?

- A. Each access group can use separate portals, harnesses, and sections. Use Specialty Components and use XML to pass data.
- B. Level up the Case Manager and Case Worker as reference points to create new portals, if required. Use Special Components and use JSON to pass data.
- C. Create different harnesses for each user's workspace. New portal rules are not needed. Define Specialty Components and use JSON to pass data.
- D. Identify the functionality required for each portal. Customize the portal either by modifying the section or harness. Use Specialty Components and use XML to pass data.

Correct Answer: C

QUESTION 6

Using the information shown in the Class structure, select the correct statement.

- A. Auto must be a subclass of Parking.
- B. Instances of EventBooking and Hosted can be stored in a separate table.
- C. EventBooking cannot be a subclass of Auto.
- D. Parking and Auto instances must be stored in the same table.

Correct Answer: D

QUESTION 7

An end user of the application experienced a browser crash while working on a highly available system. Crash recovery is enabled. Does the user to be reauthenticated?

- A. Yes, if the user is directed to the same node.
- B. No, if the user is directed to a different node.
- C. Yes, If the authentication cookie was lost.
- D. No, if the authentication cookie was lost

Correct Answer: C

QUESTION 8

BigCo receives complaints from existing customers and new prospects that BigCo repi irrelevant offers and products. Which two Pega solutions do you suggest to help solve this problem? (Choose Two)

- A. Pega Marketing
- B. Pega Customer Service
- C. Robotic Process Automation
- D. Customer Decision Hub

Correct Answer: AD

QUESTION 9

Select the option in which you would define Content Security Policies.

- A. To prevent the browser to load content from untrusted sources
- B. To restrict what data a user can view in a case the user can open
- C. To define security for case attachments
- D. To configure security for the content management integration

Correct Answer: A

QUESTION 10

An application is being constructed In multiple phases for a growing company that has over 1000 employees. During the

initial development stages, it is determined a button on a section has to be made conditionally visible based on a group of actors.

What should the conditional visibility be based on to minimize the amount of future maintenance?

- A. Privilege
- B. AccessGroup
- C. Role
- D. Work group

Correct Answer: B

QUESTION 11

Which three actions do you recommend to address their performance issue and ensure optimal application performance in the future? (Choose Three.)

- A. Dedicated a node to background processing.
- B. Review application environment sizing.
- C. Remove embedded dashboard reports from the manager portal.
- D. Minimize the usage of robotic automations.
- E. Review selection criteria of agent activities.

Correct Answer: ABE

Explanation: Six weeks after you deliver your application to production, you users report that the application slows down in the afternoon. The application is almost completely unresponsive for some users shortly after 3:00 P.M. Other users do not experience this problem until later in the day.

You do not have access to the Production environment, but you do have access to AES. The production environment has three nodes and a load balancer. You need to resolve this issue because a new division of the organization will start

using the application next month.

QUESTION 12

DRAG DROP

You are managing distributed, geographically dispersed, development teams A, B and C.

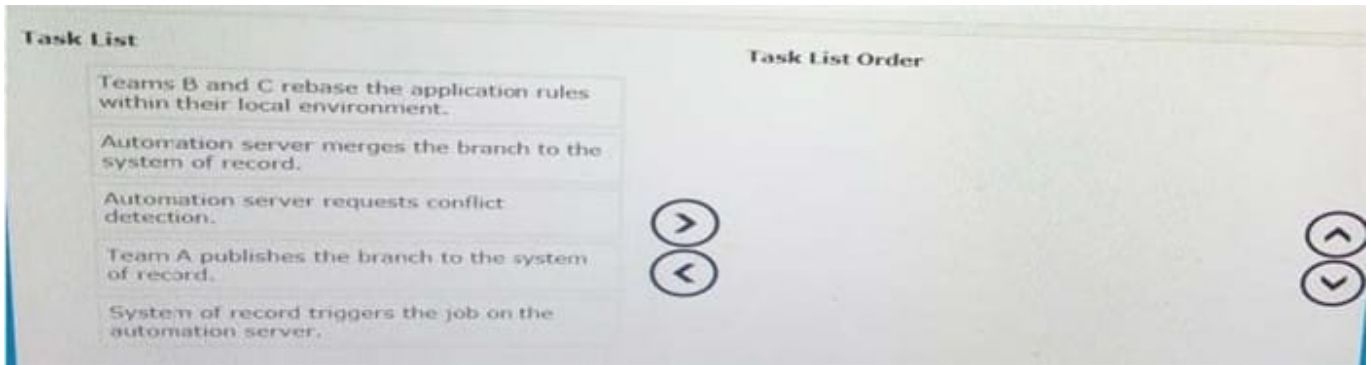

Team A is ready to merge changes into their development environment to make available changes to Team B's Team C's.

To ensure all development teams are working with the latest version of shared rule base, select and move all of the

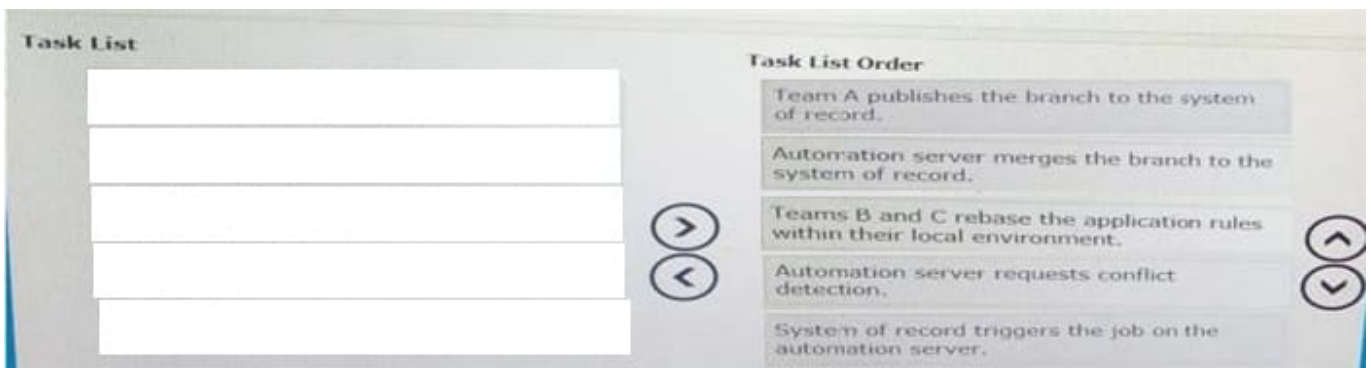

following tasks to the tasks List Order column and place them in the correct order.

Select and Place:

Correct Answer:

QUESTION 13

You are using pega express. You want to avoid creating unnecessary case-level properties and views. Which three actions do you take to accomplish this goal? (choose three)

- A. Define case type views using "\ page, property" syntax for the majority of the- fields.
- B. Drag-and-drop a Field Group when defining a case view.
- C. Create a data type that corresponds to each case type.
- D. Pre-define properties, sections, and relevant records that are applied to Work-Cover\.
- E. Add an embedded Page property to the case type.

Correct Answer: BCD

QUESTION 14

What two recommendations do you provide to the development team to ensure the performance of the Pega application does not degrade over time? (Choose Two)

- A. Add indexes to all columns.
- B. Purge workparty UIU index tables periodically.
- C. Schedule scripts to maintain frequently fragmented tables.
- D. Purge and/or archive records based on the company's record retention policy.

Correct Answer: CD

QUESTION 15

You oversee a medium-size development team, and some of the team members are new to Pega. What are the most efficient ways to ensure that the rules the team creates adhere to best practices? (choose two)

- A. Have new team members create and run Pega automated unit tests against their rules.
- B. Use Pega Log Analyzer to identify exceptions associated with the new team members.
- C. Run Tracer on each rule the new team members check in to identify any failures in rule execution.
- D. Leverage the rule check-in approval process to review the new team member's changes first.

Correct Answer: BD
