**QUESTION 1**

DRAG DROP

Select each security implementation on the left and drag it to the corresponding security policies.

Select and Place:

<u>Implementation</u>	<u>Answer Area</u>	
	<u>Implementation</u>	<u>Security policies</u>
Stop or slow a brute-force attack by enforcing a waiting period after three failed attempts.		Multi-factor authentication policies
A user is required to verify their identity with a one-time password sent by SMS text message.		CAPTCHA policies
Stop or slow a brute-force attack by enforcing a challenge-response test upon authentication failure.		Lockout policies

Correct Answer:

<u>Implementation</u>	<u>Answer Area</u>	
	<u>Implementation</u>	<u>Security policies</u>
	A user is required to verify their identity with a one-time password sent by SMS text message.	Multi-factor authentication policies
	Stop or slow a brute-force attack by enforcing a challenge-response test upon authentication failure.	CAPTCHA policies
	Stop or slow a brute-force attack by enforcing a waiting period after three failed attempts.	Lockout policies

**QUESTION 2**

A bookseller maintains a database of more than 10,000 book titles. You have been asked to configure a form that allow users to select a book by title.

How do you configure the form?

- A. Add a drop-down control and source the data from the property value used in the control.
- B. Add a drop-down control and Source the data using a data page.
- C. Add an autocomplete control and Source the data using a data page.

D. Add an autocomplete control and source the data from the clipboard work page.

Correct Answer: C

---

### QUESTION 3

You are designing a medical claim case type and have the following requirement: Medical claims must be resolved within 5 days. To meet this requirement you need to set the \_\_\_\_\_ in the service level to 5 days.

- A. passed deadline
- B. urgency
- C. deadline
- D. goal

Correct Answer: C

---

### QUESTION 4

A flow action calls a pre-processing data transform to initiate values. There are several flow actions available for the assignment. You want to make sure that the values are only initiated once for each flow action. How do you implement a solution?

- A. Do nothing. The pre-processing data transform is only called once for each assignment.
- B. Make sure that the flow action does not have the highest likelihood since it will always be invoked.
- C. Configure the data transform as post-processing instead of pre-processing.
- D. Add logic to the pre-processing data transform to test if values were already initiated.

Correct Answer: A

---

### QUESTION 5

Color options are available to the customer, but the options are available on the screen, and do not appear with the popup.

Which option to configure the color option?

- A. Dropdown
- B. Radio button
- C. Check box
- D. Autocomplete/Textfield

Correct Answer: B

---

### QUESTION 6

A life insurance company has satellite offices in various countries. Each satellite office has a work queue. Company policy requires that life insurance underwriting be assigned to offices based on the policy owner's residential address.

Which routing approach supports this requirement?

- A. Route the assignment to the correct work queue by using an authority matrix.
- B. Route the assignment to the correct work queue based on business logic.
- C. Route the assignment to a specific underwriter based on business logic.
- D. Route the assignment to the correct work queue by using a reporting structure.

Correct Answer: B

---

### QUESTION 7

To reduce scrolling on a view, you want to organize existing content so that details display when an option is selected in a drop-down menu. There is no drop-down menu currently on the view.

Which two configurations achieve the business requirement? (Choose Two)

- A. Configure a layout group to separate each option into individual panels and set the layout to a menu format.
- B. Configure a disable condition (when rule) on each field to allow access when the associated option is selected on the drop-down control.
- C. Configure a repeating dynamic layout with an embedded section for each option and set the layout format to grouped.
- D. Configure a data relationship to select the option using the Drop-down list record selection.

Correct Answer: AD

---

### QUESTION 8

#### HOTSPOT

In the Answer Area, identify the type of data measured in each report.

Hot Area:

Report	Business Data	Process Data
Number of customer support cases handled per month	<input type="radio"/>	<input type="radio"/>
Profit margin by types of goods sold monthly	<input type="radio"/>	<input type="radio"/>
Sales training investment versus annual revenue	<input type="radio"/>	<input type="radio"/>
Average number of days for customer deliveries	<input type="radio"/>	<input type="radio"/>

Correct Answer:

Report	Business Data	Process Data
Number of customer support cases handled per month	<input type="radio"/>	<input checked="" type="radio"/>
Profit margin by types of goods sold monthly	<input checked="" type="radio"/>	<input type="radio"/>
Sales training investment versus annual revenue	<input checked="" type="radio"/>	<input type="radio"/>
Average number of days for customer deliveries	<input type="radio"/>	<input checked="" type="radio"/>

### QUESTION 9

In processing a parent case P-I, two child cases C-I and C-2 are created. Which of the following statements is correct about the processing of P-I, C-I, and C-2?

- A. P-I must be resolved before either C-1 or C-2 can be resolved.
- B. Either C-1 or C-2 must be resolved before P-I can be resolved.
- C. C-1 must be resolved before C-2 can be resolved.
- D. Both C-1 and C-2 must be resolved before P-I can be resolved.

Correct Answer: D

### QUESTION 10

DRAG DROP

Select each description on the left and drag it to the correct field type on the right.

Select and Place:

<u>Description</u>	<u>Answer Area</u>								
A collection of related values that makes up a single employee record	<table border="1"><thead><tr><th><u>Description</u></th><th><u>Field Type</u></th></tr></thead><tbody><tr><td></td><td>Picklist</td></tr><tr><td></td><td>Field group</td></tr><tr><td></td><td>Field group list</td></tr></tbody></table>	<u>Description</u>	<u>Field Type</u>		Picklist		Field group		Field group list
<u>Description</u>	<u>Field Type</u>								
	Picklist								
	Field group								
	Field group list								
A collection of applicable discount codes									
A collection of unique shipping addresses associated with a customer account									

Correct Answer:

<u>Description</u>	<u>Answer Area</u>								
	<table border="1"><thead><tr><th><u>Description</u></th><th><u>Field Type</u></th></tr></thead><tbody><tr><td>A collection of applicable discount codes</td><td>Picklist</td></tr><tr><td>A collection of related values that makes up a single employee record</td><td>Field group</td></tr><tr><td>A collection of unique shipping addresses associated with a customer account</td><td>Field group list</td></tr></tbody></table>	<u>Description</u>	<u>Field Type</u>	A collection of applicable discount codes	Picklist	A collection of related values that makes up a single employee record	Field group	A collection of unique shipping addresses associated with a customer account	Field group list
<u>Description</u>	<u>Field Type</u>								
A collection of applicable discount codes	Picklist								
A collection of related values that makes up a single employee record	Field group								
A collection of unique shipping addresses associated with a customer account	Field group list								

#### QUESTION 11

A form must support accessibility.

How do you enable a user to specify a date?

- A. Configure a text box to allow date entry.
- B. Use a calendar control that displays an entire year.
- C. Use a calendar control that displays an entire month.
- D. Provide separate controls for month, day, and year.

Correct Answer: D

#### QUESTION 12

Need to select one severity option which is best.

- A. Picklist
- B. Radio button
- C. Checkbox

Correct Answer: B
