QUESTION 1

HR informs you that a user has been terminated and their account has been suspended. The user is part of a current legal investigation, and HR requires the user's email data to remain on hold. The terminated user's team is actively working on a critical project with files owned by the user. You need to ensure that the terminated user's content is appropriately kept before provisioning their license to a new user.

What two actions should you take? (Choose two.)

- A. Extend the legal hold on the user's email data.
- B. Move project files to a Team Drive or transfer ownership.
- C. Rename the account to the new user starting next week.
- D. Delete the account, freeing up a G Suite License.
- E. Assign the terminated user account an Archive User license.

Correct Answer: CD

QUESTION 2

Your cyber security team has requested that all email destined for external domains be scanned for credit card numbers, and if found, the email must be encrypted using your cloud-based third-party encryption provider. You are responsible for configuring to meet this request.

What should you do?

- A. Create a content compliance rule on outbound mail and internal-sending mail using the predefined rule for credit card numbers, and add a custom header that your third-party encryption provider can scan for and encrypt.
- B. Create a content compliance rule on outbound mail using the predefined rule for credit card numbers, and check "Encrypt message if not encrypted".
- C. Create a content compliance rule on outbound mail using the predefined rule for credit card numbers, and add a custom header that your third-party encryption provider can scan for and encrypt.
- D. Create a content compliance rule on outbound mail using the predefined rule for credit card numbers, and check "Change route" to send to your third-party encryption provider to encrypt.

Correct Answer: D

QUESTION 3

In your organization, users have been provisioned with either G Suite Enterprise, G Suite Business, or no license, depending on their job duties, and the cost of user licenses is paid out of each division's budget. In order to effectively manage the license disposition, team leaders require the ability to look up the type of

license that is currently assigned, along with the last logon date, for their direct reports.

You have been tasked with recommending a solution to the Director of IT, and have gathered the following requirements:

Team leaders must be able to retrieve this data on their own (i.e., self-service).

Team leaders are not permitted to have any level of administrative access to the G Suite Admin panel.

Team leaders must only be able to look up data for their direct reports.

The data must always be current to within 1 week.

Costs must be mitigated.

What approach should you recommend?

- A. Export log data to BigQuery with custom scopes.
- B. Use a third-party tool.
- C. Use App Script and filter views within a Google Sheet.
- D. Create an app using AppMaker and App Script.

Correct Answer: C

QUESTION 4

Your company is deploying Chrome devices. You want to make sure the machine assigned to the employee can only be signed in to by that employee and no one else.

What two things should you do? (Choose two.)

- A. Disable Guest Mode and Public Sessions.
- B. Enable a Device Policy of Sign In Screen and add the employee email address.
- C. Enroll a 2-Factor hardware key on the device using the employee email address.
- D. Enable a User Policy of Multiple Sign In Access and add just the employee email address.
- E. Enable a Device Policy of Restrict Sign In to List of Users, and add the employee email address.

Correct Answer: BC

QUESTION 5

Madeupcorp.com is in the process of migrating from a third-party email system to G Suite. The VP of Marketing is concerned that her team already administers the corporate AdSense, AdWords, and YouTube channels using their

@madeupcorp.com email addresses, but has not tracked which users have access to which service. You need to ensure that there is no disruption.

What should you do?

- A. Run the Transfer Tool for Unmanaged users.
- B. Use a Google Form to survey the Marketing department users.
- C. Assure the VP that there is no action required to configure G Suite.
- D. Contact Google Enterprise Support to identify affected users.

Correct Answer: A

QUESTION 6

Your company has just received a shipment of ten Chromebooks to be deployed across the company, four of which will be used by remote employees. In order to prepare them for use, you need to register them in G Suite.

What should you do?

- A. Turn on the Chromebook and press Ctrl+Alt+E at the login screen to begin enterprise enrollment.
- B. In Chrome Management | Device Settings, enable Forced Re-enrollment for all devices.
- C. Turn on the chromebook and log in as a Chrome Device admin. Press Ctrl+Alt+E to begin enterprise enrollment.
- D. Instruct the employees to log in to the Chromebook. Upon login, the auto enrollment process will begin.

Correct Answer: A

QUESTION 7

After migrating to G Suite, your legal team requests access to search all email and create litigation holds for employees who are involved with active litigation. You need to help the legal team meet this request.

What should you do?

- A. Add the legal team to the User Management Admin system role.
- B. Add the legal team to the Google Vault Google Group.
- C. Create a custom role with Google Vault access, and add the legal team.
- D. Create a matter in Google Vault, and share with the legal team.

Correct Answer: C

QUESTION 8

The CEO of your company heard about new security and collaboration features and wants to know how to stay up to date. You are responsible for testing and staying up to date with new features, and have been asked to prepare a presentation for management.

What should you do?

- A. Download the G Suite roadmap, and work together with a deployment specialist for new features.
- B. Create a support ticket for the G Suite roadmap, and ask to enable the latest release of G Suite.
- C. Subscribe to the G Suite release calendar, and Join the Google Cloud Connect Community.
- D. Change G Suite release track to: Rapid Release for faster access to new features.

Correct Answer: C

QUESTION 9

How can you monitor increases in user reported Spam as identified by Google?

- A. Review post-delivery activity in the Email logs.
- B. Review user-reported spam in the Investigation Tool.
- C. Review spike in user-reported spam in the Alert center.
- D. Review post-delivery activity in the BigQuery Export.

Correct Answer: C

QUESTION 10

Your company's Chief Information Security Officer has made a new policy where third-party apps should not have OAuth permissions to Google Drive. You need to reconfigure current settings to adhere to this policy.

What should you do?

- A. Access the Security Menu > API Reference > disable all API Access.
- B. Access the Security Menu > API Permissions > choose Drive and Disable All Access.
- C. Access the Security Menu > API Permissions > choose Drive and Disable High Risk Access.
- D. Access Apps > G Suite > Drive and Docs > Sharing Settings and disable sharing outside of your domain

Correct Answer: D

Reference: <https://support.google.com/a/answer/60781?hl=en>

QUESTION 11

Your chief compliance officer is concerned about API access to organization data across different cloud vendors. He has tasked you with compiling a list of applications that have API access to G Suite data, the data they have access to, and the number of users who are using the applications.

How should you compile the data being requested?

- A. Review the authorized applications for each user via the G Suite Admin panel.
- B. Create a survey via Google forms, and collect the application data from users.
- C. Review the token audit log, and compile a list of all the applications and their scopes.
- D. Review the API permissions installed apps list, and export the list.

Correct Answer: A

QUESTION 12

Your organization has recently gone Google, but you are not syncing Groups yet. You plan to sync all of your Active Directory group objects to Google Groups with a single GCDS configuration.

Which scenario could require an alternative deployment strategy?

- A. Some of your Active Directory groups have sensitive group membership.
- B. Some of the Active Directory groups do not have owners.
- C. Some of the Active Directory groups have members external to organization.
- D. Some of the Active Directory groups do not have email addresses.

Correct Answer: C

QUESTION 13

Security and Compliance has identified that data is being leaked through a third-party application connected to G Suite. You want to investigate using an audit log.

What log should you use?

- A. Admin audit log
- B. SAML audit log
- C. Drive usage audit log
- D. OAuth Token audit log

Correct Answer: D

Reference: <https://support.google.com/a/answer/6124308?hl=en>

QUESTION 14

In the years prior to your organization moving to G Suite, it was relatively common practice for users to create consumer Google accounts with their corporate email address (for example, to monitor Analytics, manage AdSense, and collaborate in Docs with other partners who were on G Suite.) You were able to address active employees' use of consumer accounts during the rollout, and you are now concerned about blocking former employees who could potentially still have access to those services even though they don't have access to their corporate email account.

What should you do?

- A. Contact Google Enterprise Support to provide a list of all accounts on your domain(s) that access non-G Suite Google services and have them blocked.
- B. Use the Transfer Tool for Unmanaged Accounts to send requests to the former users to transfer their account to your domain as a managed account.
- C. Provide a list of all active employees to the managers of your company's Analytics, AdSense, etc. accounts, so they can clean up the respective access control lists.
- D. Provision former user accounts with Cloud Identity licenses, generate a new Google password, and place them in an OU with all G Suite and Other Google Services disabled.

Correct Answer: C

QUESTION 15

With the help of a partner, you deployed G Suite last year and have seen the rapid pace of innovation and development within the platform. Your CIO has requested that you develop a method of staying up-to-date on all things G Suite so that you can be prepared to take advantage of new features and ensure that your organization gets the most out of the platform.

What should you do?

- A. Develop a cadence of regular roadmap and business reviews with your partner.
- B. Regularly scan the admin console and keep track of any new features you identify.
- C. Create a Feature Release alert in the Alert Center to be alerted to new functionality.
- D. Put half of your organization on the Rapid Release Schedule to highlight differences.
