QUESTION 14

During a Sprint Retrospective, for what is the Scrum Master responsible?

- A. Prioritizing the resulting action items.
- B. Participating as a Scrum team member and facilitating as requested or needed.
- C. Acting as a scribe to capture the Development Team's answers.
- D. Summarizing and reporting the discussions to management.

Correct Answer: B

QUESTION 15

A properly functioning Scrum Team will have at least one Release Sprint and may well have several.

- A. True
- B. False

Correct Answer: B

The answer is B because there is no "Release Sprint" --> Release Sprint: Each sprint must result in a potentially releasable increment, regardless of the number of teams and deliverables involved in a release, so batch sizes of undelivered work can be minimized and controlled. A so-called Release Sprint would therefore be a contra-indication to agile practice.
